SNEC GLOBAL OPHTHALMOLOGY

POST GRADUATE FELLOWSHIP/
SNEC EYE-CARE OBSERVERSHIPS

SNEC-GLOBAL OPHTHALMOLOGY (GO) FELLOWSHIP & SNEC- EYE CARE OBSERVERSHIPS

SNEC is offering a unique fellowship experience aimed at grooming ophthalmology leaders of the future with a focus on the Asia-Pacific region

This will combine **1) targeted sub-specialty training** in common diseases in Asia and **2) public health training** with an aim to support the implementation of sustainable programs back in the candidate's home country

Specialty Clinical Skills Training

3 main tracks based on prevalent Asian eye diseases

1. Myopia and refractive error
2. Medical Glaucoma
3. Medical Retina

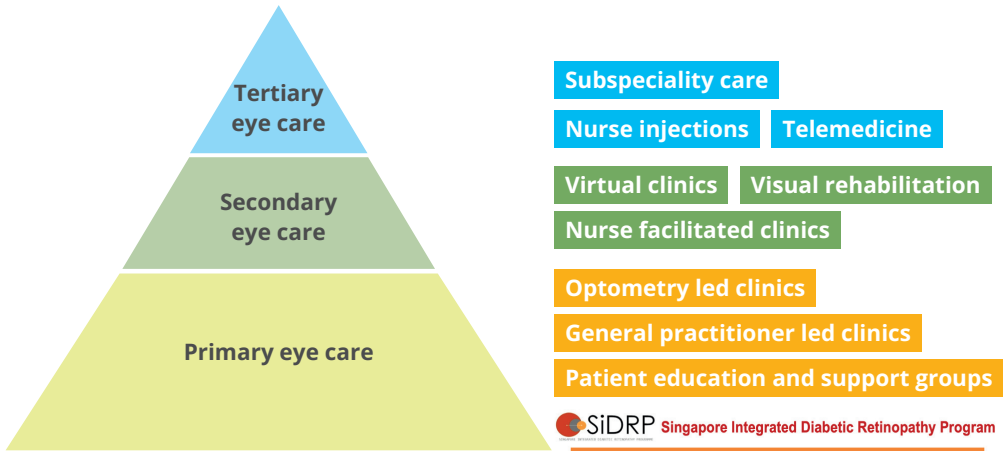

Project Deliverable

Public Health Training and Exposure to Different Models of Care

- ✓ Singapore based-funding provided
- ✓ Option of 3 to 12 months depending on the needs
- ✓ Targeted to candidates from low-middle income countries especially those from resource scarce areas
- ✓ Public health training/Leadership courses
 - Online courses (collaboration with other higher institutions)
 - Education scholarships available Participate in different innovative care models
- ✓ Team training highly encouraged (e.g ophthalmologists with allied health staff)
- ✓ Please submit your application at least 6 months prior to your intended start date

INNOVATIVE MODELS OF CARE

TRAINING OBJECTIVES

- 1 year fellowship
- Aims to train Ophthalmologists from under-served countries in the region with a focus on Global Ophthalmology (GO)
 - Understand the healthcare system models in SNEC and how care is delivered efficiently to our population
 - Appreciate the scope of diseases seen in Singapore and methods of monitoring
 - To provide them with foundational knowledge to assist with the implementation of similar programmes in their own country
 - Opportunities for shorter term observerships
 - Team training for ophthalmologists and allied health (nurse, optometrist & clinician) encouraged
