

International Myopia Society Meeting

19 July 2025 ■ Singapore

The second International Myopia Society Meeting will be held in Singapore on 19 July 2025. This meeting will feature leading myopia specialists from around the globe.

The agenda includes consensus discussions on myopia control and complications management. Scientific sessions featuring invited and submitted presentations will cover the latest advances in myopia prevention, macular complications, optic neuropathy and peripheral retinal lesions and discuss the relationship between prevention strategies and complication development.

Participants will have the opportunity to engage with their presentations and interact with field experts.

We urge you to register promptly and join us in this vital initiative.
